## ANSELL PROJEX GLOVES

**A. Use & information**

This Instruction for Use note is to be used in combination with the specific information that is added to each pair of gloves.

These gloves are designed to protect the hands against mainly mechanical risks. They are in conformity with, and are marked per the requirements, of the European Directive 89/686/EEC and its amendments. They also comply to the applicable European Standards EN 420 and EN 388.

The gloves are available in sizes 7, 8, 9 and 10. The Inspire gloves are available in sizes 6, 7 and 8.

Please ensure the gloves are used only for the designated purposes.

Explanation of pictograms:

EC-Type examination certificate from Centexbel Belgium (I.D. 0493), Technologiepark 7, B-9052 Zwijnaarde.

For more detailed information on the product's performance and to obtain a copy of the Conformity Declaration, please consult Ansell.

**B. Precautions for use**

1. NEVER USE THESE GLOVES WITH CHEMICALS.
2. Gloves should not be used when there is a risk of entanglement with moving machine parts.
3. Before usage, inspect the gloves for imperfections. Avoid wearing damaged, dirty or worn out gloves.
4. The gloves should not come in contact with high temperatures exceeding 100°C or in contact with a naked flame and are not designed to be used with low temperatures down to -30°C or lower.
5. The gloves are to be used to protect only the palm area of the wearer's hands from mechanical actions (not applicable to the styles "Driver" and "Insulated Driver"). Therefore the EN 388 performance levels mentioned underneath the pictogram refer to the performance of the palm of the gloves only.
6. The length of the Inspire gloves fall below the minimum glove length as defined in EN 420:2003. These gloves are 'Fit for Special Purpose gloves' and should not be used when protection in the cuff area is needed.

**C. Ingredients / Hazardous ingredients**

**WARNING: THIS PRODUCT CONTAINS NATURAL RUBBER LATEX WHICH MAY CAUSE ALLERGIC REACTIONS**

For more information, please contact Ansell's Technical department.

**D. Care instructions**

**Storage:** Keep away from direct sunlight; store in a cool dry place.  
Keep away from ozone sources or naked flame.

**Cleaning:** Gloves are not designed to be laundered.  
If they are laundered, the customer or launderer is responsible for the performance of the gloves after laundering. Ansell cannot be held liable for this.

**E. Disposal**

Used gloves may be contaminated with infectious or other hazardous materials.

Dispose of according to Local Authority Regulations. Landfill or incinerate under controlled conditions.
